Pasta Sheeter Attachment **LM90110**

The LM90110 Sheeter Attachment will transform your planetary mixer into a fresh pasta sheeter. LM90110 will work on most 20 qt or larger planetary mixers with a #12 hub and will produce up to 20-30 lbs/hr of fresh pasta. Simply drop in your granulated pasta dough from the mixer and let the LM90110 make sheets of pasta for the production of lasagna, ravioli, or tagliatelle. Insert either of the three included pasta cutters and cut the pasta sheets to width. An optional ravioli attachment allows you to make fresh ravioli directly from the LM90110. Disassembly is quick and easy for simple cleaning and storage.

FEATURES

- › Transforms planetary mixer into pasta sheeter
- › Works with most 20 qt or larger planetary mixers with #12 hub
- › Up to 20-30 lbs/hr production
- › Three Included Cutters: 2mm flat, 4mm flat, 6mm flat

OPTIONAL ATTACHMENTS

1. **Ravioli Attachment:** Single sheet ravioli attachment makes ravioli from a single sheet of pasta for a ravioli similar to those made by hand. Interchangeable ravioli moulds allow for different ravioli shapes and sizes.
